

# **Boban i Marko Markovic Orkestar**

## **Technical Rider**

### **P.A./ LIGHTS**

A complete P.A. and light system has to be provided by the promoter.

A stage plan is enclosed. We do not need a separate monitor desk. A regular club P.A. with 24 channels is fine for the group.

**Some of the boys have clip on mics for their brass instruments, so they just need a mic line – total 5 cables.**

**For the rest, we need**

**1 trumpet and 1 vocal mic for Boban**

**1 trumpet and 1 vocal mic for Marko**

**3 mics for trumpets**

**3 mics for percussions (2 overhads and one clip)**

**1 mic for snare**

**2 for the big drum**

**if possible 7 monitors with 6 mixes, with reverb, as well.**

***The band travels WITHOUT sound engineer and without light engineer!!!!***
